TELSTAR J.V.'s CONTINUE HOT WITH 36-0 VICTORY OVER FRYEBURG J.V.'s
Telstar's football J.V.'s extended their unbeaten streak to five straight games without a loss Monday with a 36-0 verdict over Fryeburg Academy.

Telstar raced to a 30-0 halftime lead and coasted home in the third and fourth quarters by adding a lone touchdown in the third quarter.

In the first period, following an exchange of punts, defensive halfback Duffy Ellsworth scooped up a loose ball and rambled 44 yards for the opening score, and a 6-0 lead. Late in the first period Chris Olson returned a Fryeburg punt to the 37 yard line and five plays later Ricky Mills raced 21 yards off tackle for the score. Chris Olson rushed the extra points making it 14-0 at the end of the first quarter.

Taking off in the second quarter where they left off in the first, the Rebels got on the board again when Duffy Ellsworth hit right end Scot Holt with a 23 yard scoring strike. Mike Dunn rushed the extra points for a 22-0 lead. Closing out the scoring in the first half was Chris Olson on a 12 yard sweep which culminated a 67 yard drive, taking up nine offensive plays. Mike Dunn again rushed the extra points for a 30-0 halftime lead.

Beginning the third quarter, with second string quarterback, Mike Dunn, at the helm, Telstar closed out the scoring when halfback Duffy Ellsworth raced 18 yards for the final score.

Telstar's fine defense led by Bruce Swan, Jeff Fleet, Brad Wight, Ernie Chapman, David Webster and Jack Taylor continually threw Fryeburg runners for losses and allowed the Raider offense to cross the 50 yard line only once.

Offensively, Telstar picked up 152 yards rushing, led by Ellsworth's 51 yards on four carries, Mills' 44 yards on eight carries and Olson's 33 yards on nine carries.

Telstar entertains the Lisbon J.V.'s next Tuesday afternoon at 3:30.

The scoring:
Telstar 14 16 6 0-36
Fryeburg 0 0 0 0-0

Ellsworth, 44 yd. run with recovered fumble (rush failed); Mills, 21 yd. run (Olson rush); Holt, 23 yd. pass from Ellsworth (Dunn rush); Olson, 12 yd. run (Dunn rush); Ellsworth, 18 yd. run (rush failed).

Mrs. Ernest Mundt returned home Saturday from Stephens Memorial Hospital.

Mr. and Mrs. Charles Helms, Boothbay Harbor, were in town on Monday to attend the funeral of her aunt, Mrs. Lillian Smith.

LETTERS TO THE EDITOR

To the Editor:
I am against P. A. M. (Public Power for Maine) for the reasons already expressed by the Citizens Against Public Power. Furthermore it is a poorly written bill that does not disclose many vital aspects.

There are approximately 12,000 employees of the State at the present time. The State budget is approximately 750 million dollars. This is for about one million residents.

The 196th Legislature voted to build a new office building and parking garage. (\$22,000,000).

The office building it built a few years ago is outgrown and it costs the State about one million dollars per year for rent in and about Augusta. P. A. M. would add to this empire as it means more offices, more employees for this system to be set up all over the State.

Let's keep things as they are so that we do not have to hunt for new sources of revenue to keep this vast machine going.

GREENWOOD CITY

— Mrs. Collista Morgan, Corres. —
The day was clear, the sky blue, my destination was a short-cut to the farm fields and Noyes Mountain. I took my camera to capture the colored beauty which surrounded the valley.

At the top of the hill, I viewed the vast and open panorama of wilderness. Mile after mile on all sides stretched away great colored forest, mixed with green. In the foreground, the colors were the heavenly blue of the pond. Sky and pond were opposite mirrors reflecting the color and light so that the water contained rich shades of olive and yellow, red and gold. The pond shore was dark in contrast to its surroundings.

Overset Mountain, my kneeling-elf, was today dressed in colors that would put the gayest circus fire to shame. I could almost believe that if I kept watch it would stretch and rise from its knees, so real and outstanding did it look.

My eyes followed the descent over the other mountains, then ascended the ridges and hills until at length I gazed at the mountains that form the clouds casting slowly drifting shadows in the gorgeous color of wooded slopes then into the valley.

Here was a chance for some fine pictures for since dawn was ushered in it had been a day fit to boast about in any climate.

I sat on a rock overlooking the valley where I leasured and lazed, fascinated by this autumn afternoon of blue and gold.

"So often I've climbed to the top of the hill
To look at this world I adore
And here I have found a peace I can keep.
A peace that each heart searches for.
Life holds so much we can each make our own.
A courage and hope to instill.
It will ever keep climbing and look to the sky
Until we reach the top of the hill."

Keep People in Power Keep P.A.M. Politicians Out

facts you'd better know about the Power Authority of Maine:

If you vote the State into the power business, you vote your local companies out of the power business.

It's as simple as that.

It's true that in some states, government and private power have been able to co-exist together. But it's not true that they could co-exist in Maine. Not with the PAM bill that you are going to vote on November 6th.

This is one of the most dangerous pieces of legislation ever written in this or any other state.

It gives absolute power to a small group of seven men appointed by the Governor.

This little bureaucracy could make its own rules, set your electric rates as high as it pleased, hire and fire anybody it wanted without regard to civil service or labor unions,

confiscate land by eminent domain, pay only lip service to environmental laws we've all been trying to work within — and all this they could do without answering to the Public Utilities Commission, as your local power companies have to now.

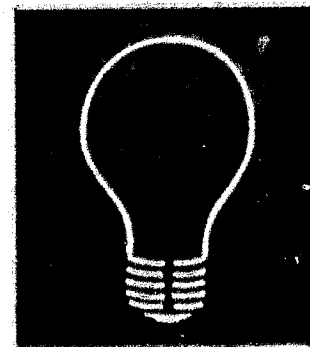

Over the years, such an all powerful and unregulated bureaucracy would, little by little, take everything it wanted from the local power companies, leaving them no choice but to go out of business.

And if they're out of business, the people of Maine are out of luck.

All the millions of tax dollars the power companies now pay toward your local roads, schools, etc., will be added on to your present tax bill.

All the experience of generating and transmitting electricity to you for over 50 years would go down the drain, leaving you with professional politicians instead of professional power experts to provide your service.

The day your local power company goes out of business could be a dark day for Maine... literally.

The other day was the first time in years I had been in my grandfather's barn. My grandparents had taken me and my girls out to see the new baby calf. As soon as the big door was opened and I stepped inside, I wasn't sure if I was in the same barn that I used to play in as a girl.

The hayloft was much smaller than the one we played in, the beams weren't as high as the ones we used to jump from. The long row of grain bins were gone, but the memory of opening them and having two tiny eyes staring back at me is still very fresh in my mind, as I'm sure it is the mouse's. Going into the part of the barn where the stalls are I could hardly believe the difference. One tiny calf stood where three big cows used to. It was hard to believe that I used to stand and watch my grandfather milk those cows, my mouth open, and awaiting the squirt of warm milk playfully aimed at me. The pen where the chickens and pullets used to be was still there, but gone were the nests where every day would be an egg hunt for us children, each egg a treasure to take back to our grandmother. The big gray horse, Sally, now stands in the stall where the cows were put with their calves. I remember one time going into the barn and seeing the mother cow licking off her calf shortly after it had been born, and knowing that there was the miracle of life, right there in that stall in my grandfather's barn. As I thought about how much the barn had changed, I realized it wasn't the barn, it was me. I had grown up, but things have taken on a different perspective for me. I now see things through the eyes of an adult, not a child.
